During the first 25 years of the Platinum Protection Workmanship Period, if any part of your Roofing System is found to have an application defect or there are application errors in your Roofing System, Owens Corning will arrange to have your roof repaired or recovered or, at its sole option, will provide you with replacement roofing products and issue Compensation (**M AT** as defined below) for the full reasonable cost of labor and other materials to repair or recover your roof, including flashings at valleys, dormers, chimneys and plumbing vents. Failure to install adequate ventilation is not an application error of your Owens Corning® products. Ventilation can be limited by the design and configuration of existing structures. The costs of labor to tear off some or all of your Roofing System and disposal are included, if necessary, to repair your roof. Platinum Protection Workmanship Period is outlined in the After the first 25 years of the Platinum Protection Workmanship Period, if any part of your Roofing System is found to have an application defect or there are application errors in your Roofing System, Owens Corning's compensation to you will prorated to take into account the number of years of use you have enjoyed from the original installation date through the date of your claim and reduce the amount of Compensation accordingly.

NOTE: First 2 Years. following the date of installation (**A**) against brown-black staining caused by growth of cyanobacteria *Gloeocapsa magma* algae. We do not cover the effects of other growth such as mold, lichen, and green algae. If brown-black staining occurs during the AR Warranty Period, you will be entitled to the following remedy:

- **A** —If your AR shingles are discolored by cyanobacteria algae growth during the first year of the AR Warranty Period, we will compensate you for the cost, including labor (such cost not to exceed the initial cost of the AR shingles plus the initial cost of installation), as reasonably determined by Owens Corning, to repair, replace or recover the affected AR shingles. For purposes of this AR shingle warranty, the term "repair" as used above refers to cleaning or otherwise removing any algae growth from affected AR shingles. Decisions regarding whether your AR shingles should be repaired, replaced or recovered will be made solely by Owens Corning.
- **A** —If your AR shingles have been installed longer than 1 year, labor will not be covered and our compensation will be limited to a prorated amount of the cost of the affected AR shingles. We will prorate your compensation to take into account the number of full years of use that you have enjoyed from the original installation date through the date of your claim. For example: If you make your claim anytime in the 4th year of the AR warranty and the AR Warranty Period is 10 years, our compensation to you will be the amount of the cost of the affected AR shingles reduced by 3/10ths of the cost of the affected AR shingles.

NOTE: In dry regions with limited rainfall, copper released by algae resistant shingles can cause excessive corrosion to aluminum gutters. In these regions, Owens Corning recommends using vinyl gutters and will not be liable for any damage that may result from using aluminum gutters with algae resistant shingles.
